## Profile

Reliable, resourceful, dynamic, self-motivated, and hardworking person, bringing forth a motivated attitude and a variety of powerful skills. Adept in various social media platforms and office technology programs. Committed to utilizing my skills to further the mission of the company.

## Education

### Vocational College, Degree in Economics

2022 – 2024  Brežice

Vocational college education in Brežice, Slovenia, which was 2 years long, offered me the ability of practical education in both years of my study, in a total of 800 hours, working at the company of my choice. Throughout college, I have obtained especially useful knowledge related to economics, finances, marketing, and political views, which can be applied to almost any field in the working force. The college benefited me in a positive way, providing me with sufficient knowledge before stepping into a future job market.

### Senior High School, Degree in Computer Technition

2015 – 2019  Krško

Senior high school in Krško, Slovenia, which was 4 years long, helped me realize the field I am interested in and helped me offer excellent knowledge regarding computers, both hardware and software wise. I have gained experience working in teams, software programming languages, using professional data manipulation applications, and writing quality documentation.

### Secondary School

2007 – 2015  Brežice

Secondary school in Brežice, Slovenia

## Internships

### Technician, Krka

Jan 2023 – Mar 2023  Novo Mesto

Doing my internship in pharmaceutical company Krka, one of the leading companies in Europe, offered me an amazing insight into a professionally organized workflow, where I have been offered a 3-month internship working as a Technician in the secondary packaging department, where with help of Adobe and other programs, designed graphical side of packaging for various different pharmaceutical drugs, which spread to more than 70 different countries worldwide. This internship provided me with a massive amount of competencies, skills, and truly gave me an insight into the business workflow consisting of multiple departments, all internally combined.

### Digital Design, Uniprint

Oct 2019 – Nov 2019  Burmarrad, Malta

The ability to do an internship abroad in Malta heavily contributed me with positive working experiences, working in teams and communicating directly with our clients. I worked with Adobe programs and stood alongside our clients by designing their wishes, which later on went into final print, whether those were business cards, birthday wishes, shirt logo prints, or business branded pens.
